

Bella Construction Project

Project: Mercer Island Home - Bath Remodel

Designer: Margaret Thomas Interiors

This Mercer Island home received a bathroom remodel by Bella Construction, and the results were stunning. The project included oversized Italian tile-work, hand-formed, “poured” glass doors, fabricated in Canada, a no-curb shower space in the master, and Italian hardware throughout. Designed by Margaret Thomas Interiors of Seattle, both the designer and the homeowner were exceptionally pleased with the craftsmanship and attention to detail Bella Construction brought to the project.
